# **THE PRACTICAL APPLICATION OF THE 2021 FIDIC SHORT FORM OF CONTRACT SUITABLE FOR PROJECTS VALUED AT UP TO US \$25 MILLION**

OVERVIEW: This Contract published in 2021 is the second edition following that published in 1999. However, it is in effect a totally new Contract, three times the text of the 1999 Contract and with fundamental changes that make it suitable for much larger projects than was envisaged with the 1999 Contract.

The 2021 Contract is much more a “mini 2017 FIDIC Conditions of Contract for Construction” with the introduction of an Engineer who is to act neutrally when making determinations and a Full Term Disputes Adjudicator.

The procedures within the Contract mirror many of those of the 2017 Contracts requiring close attention to the details. There are also innovations such as a method for the valuation of Prolongation Costs as well as extensive details of the Employer’s Risks

This course has the objective of providing participants with a sound understanding of the responsibilities, and risks applicable to the Employer, Contractor and Engineer, as well as explaining the many procedures required in the execution of the Contract

## **SEMINAR TUTORS:**

**David Heslett BSc (Hons), C.Eng, FICE**

**Marcus Theil Dipl.-Ing., C. Eng.**

**SENIOR ADVISOR: Jim Maclure M.Sc., C.Eng, FICE**
